HEAT SINK ASSEMBLIES

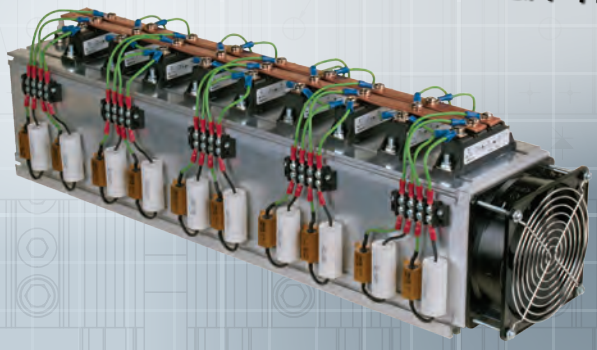

C&H Technology has extensive experience designing & building custom power assemblies for a variety of industrial applications. We deliver top quality power assemblies at the best possible price. C&H Technology can assist with your entire design – from conception to prototype to full production.

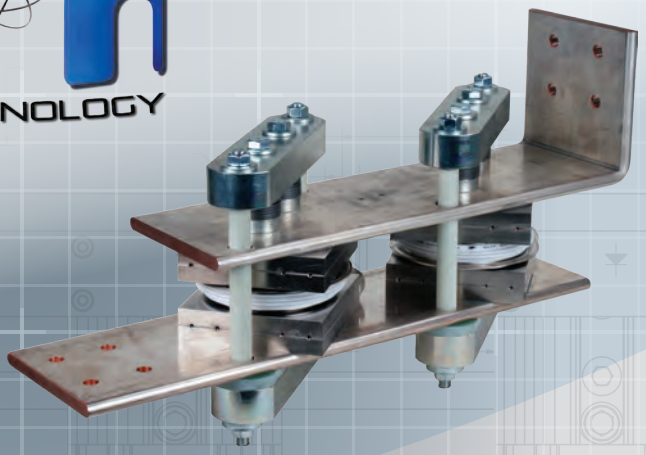

We offer a large selection of standard and custom assemblies to meet your specific requirements – up to 50,000 Amps.

C&H TECHNOLOGY

Welding Power Supplies	Electric Vehicles	Transportation
Battery Chargers	Power Supplies	Power Generation
Steel Mills	Forklifts	Wind Turbines
Aluminum Smelters	Overhead Cranes	Solar Inverters
Mining Equipment	Industrial Motor Control	And many others…

OUR PRODUCTS ARE USED WORLDWIDE IN ALL INDUSTRIAL SECTORS

C&H TECHNOLOGY

Added Value

Engineering | Custom Part Marking | Electrical Testing | Leakage Testing | Blocking Voltage
Bar Coding | Forward Voltage Drop Matching | Just-In-Time Delivery
SCR Gate and Latching Current | Lead and Terminal Modifications

We believe quality and service are essential.
